6 Who Needs MindOps

AI is Becoming Part Of Everyday Work

Organizations are rapidly integrating AI into:

AI is everywhere inside the enterprise

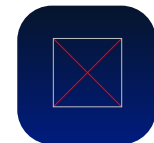

THE HIDDEN RISK OF AI

Enterprise AI Introduces New Security Risks

Without proper controls, AI can expose sensitive data.

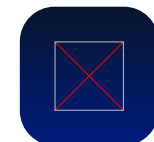

Employees sharing confidential data

Developers exposing credentials

Prompt injection attacks

AI responses leaking sensitive information

THE MISSING LAYER IN AI ARCHITECTURE

Enterprises Need an AI Security Layer

Today, most organizations connect directly to AI models

Current Architecture

Secure Architecture
